

Sam Orr's Pond Trail Map

Copyright 2005 - The Nature Trust of New Brunswick

The trailhead is found on the 127 highway, on the eastern side of the St. Andrews peninsula, in the community of Bocabec. A Nature Trust sign on the east side of the road marks the trailhead, between civic number 5185 and 5149.

The trail has a moderate to challenging difficulty level, and good walking shoes or boots are a must. Parts of the trail are a long distance from road access, please be cautious. Users of the trail do so at their own risk; beware of the incoming tide, fast-changing weather, and slippery rocks, especially along the shore. **Please respect the preserve by staying on the trail and taking away any trash you find.**
